WARNING: PHOTOSENSTIVITY/EPILEPSY/SEIZURES
A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- disorientation
- any involuntary movement or convulsion.

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure
- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation®3 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

NOTICE:
Use caution when using the DUALSHOCK®3 wireless controller motion sensor function. When using the DUALSHOCK®3 wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:
Do not connect your PS3™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PS3™ FORMAT DISC:
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

NOTICES:
Video output in HD requires cables and an HD-compatible display, both sold separately.

GETTING STARTED

PlayStation®3 system

Starting a game: Before use, carefully read the instructions supplied with the PS3™ computer entertainment system. The documentation contains information on setting up and using your system as well as important safety information.

Check that the MAIN POWER switch (located on the system rear) is turned on. Insert the FALLOUT NEW VEGAS ULTIMATE EDITION disc with the label facing up into the disc slot. Select the icon for the software title under [Game] in the PS3™ system’s home menu, and then press the $ button. Refer to this manual for information on using the software.

Quitting a game: During gameplay, press and hold down the PS button on the wireless controller for at least 2 seconds. Then select “Quit Game” from the screen that is displayed.

HINT To remove a disc, touch the eject button after quitting the game.

Trophies: Earn, compare and share trophies that you earn by making specific in-game accomplishments. Trophies access requires a PlayStation®Network account.

Saved data for PS3™ format software
Saved data for PS3™ format software is saved on the system’s hard disk. The data is displayed under “Saved Game Utility” in the Game menu.

**MAIN MENU**

Continue
Continue playing from your most recent saved game.

New
Begin a new game of Fallout: New Vegas.

Load
Allows you to select from a list of previously saved games.

Settings
Takes you to the Settings Menu where you can adjust your gameplay, display, audio, and control preferences. See pg. 26 for more info.

Credits
View the Fallout: New Vegas credits.

Downloadable Content
View any Downloadable Content you have obtained for Fallout: New Vegas.

---

**PLAYING THE ADDITIONAL CONTENT**

No installation is necessary. All additional content will be available when a new or saved game is started. If you’ve already played Fallout: New Vegas, you will see your saves in the Load/Save menus, so you can continue with an existing character. If you are starting a new game, you must exit Doc Mitchell’s House (character generation) first before receiving the downloadable content messages.

**DEAD MONEY**
For Dead Money, a new radio signal will appear, notifying the player to track down the source of the Sierra Madre invitation, with a new map marker and quest objective, “Sierra Madre Grand Opening!”

**HONEST HEARTS**
For Honest Hearts, a new radio signal will appear, notifying the player to find the Happy Trails caravan master, Jed Masterson, with a new map marker and quest object, “Happy Trails Expedition.”

**OLD WORLD BLUES**
For Old World Blues, a new radio signal will appear, notifying the player to investigate the midnight showing at the Mojave Drive-in, with a new map marker and quest objective, “Midnight Science-Fiction Feature!”

**LONESOME ROAD**
For Lonesome Road, a new radio signal will appear, notifying the player to travel to the Canyon Wreckage and enter the Divide, with a new map marker and quest objective, “The Reunion.”

**GUN RUNNERS’ ARSENAL**
For Gun Runners’ Arsenal, a message will appear, notifying the player that all major and minor weapon dealers in the Mojave Wasteland now carry new weapons, ammunition types and modifications.

**COURIER’S STASH**
All contents of the Tribal Pack, Mercenary Pack, Caravan Pack and Classic Pack will be loaded to the player character automatically once the player loads a save or a new game after the content pack installed.

---

**THE GAME SCREEN**

**Hit Points (HP)**
Your overall health. When you run out of HP, your character dies.

**Compass**
The compass indicates the direction you are heading, as well as enemies, nearby locations, enemies, and quest markers.

**Action Points (AP)**
The total number of AP available is based on your character’s agility. Action Points are only used in V.A.T.S. Mode (see pg. 15).

**Weapon Condition (CND)**
The shorter the bar, the worse the condition of your weapon.

**Ammo**
The ammo for your equipped weapon. The first number is how many rounds you have before a reload, and the second number is your remaining ammo.

**Enemy Health Bar**
Shows the current health of the targeted enemy.

**Rad Meter**
Will appear whenever radiation damage is taken.

**XP Bar**
Will appear whenever experience points are earned.

**Damage Threshold Shield**
Will appear when the damage inflicted by your weapon is lower than the Damage Threshold for the armor of the enemy you’re attacking. When this appears you should switch to a more effective weapon (see pg 14).
COMPASS AND ACTIVATION ICONS

- **Clear triangle**: Indicates a location that you have not yet discovered.
- **Filled triangle**: Indicates a location that you have previously discovered.
- **Quest Target**: If you have an active quest, any quest targets will be displayed on your compass as a solid arrow. The quest target will flash faster and faster as you get closer to it.
- **Map Marker**: If you have placed your own marker on the map, this will be displayed as a transparent arrow.
- **Friend/Foe Markers**: People and creatures that you perceive are displayed on the compass as vertical bars. Yellow bars indicate friendly people/creatures. Red bars indicate enemies. Your Perception stat affects if you can "detect" them.

Crosshair

Your crosshair will change whenever you are able to interact with an object. Press the \( S \) button to interact with the highlighted object.

THE PIP-BOY 3000

- **Rad Meter**: To the top left of your Pip-Boy is a personal radiation meter that tells you how many Rads you've currently taken in radiation damage.

**Sections**

There are three main sections in your Pip-Boy 3000:

- **Stats**: Information about your character’s stats and abilities.
- **Items**: All of the items your character is currently carrying.
- **Data**: Contains your maps, quest info, notes, and access to any radio signals you can pick up.

Each section is broken into different sub-menus.
The Stats Menu has basic info about the health of your character. Moving up/down on the Left stick moves you between the three important subsections for Status:

- **CND** – Shows the condition of each part of your character’s body indicated by a bar. The shorter the bar, the more damaged that body part is. When the bar is gone, that part is considered crippled and will appear as a dotted line. If you have any Doctor’s Bags, pressing the D button will heal all of your limbs. If you have Stimpaks, you can heal a specific limb by pressing the F button and selecting which specific one you’d like to heal. See Aid, page 17.

- **RAD** – Shows your current level of radiation resistance and how many total Rads of damage your character has taken. If you have RadAway in your inventory, press the S button to use it to flush RADs out of your system. If you have Rad-X, you can press the F button to increase your character’s RAD resistance for a period of time.

- You can be exposed to radiation either directly from the environment, or by ingesting irradiated food and water. A small amount of radiation will not hurt you, but as your accumulated exposure goes up, you will begin to suffer ill effects (including death, eventually).

**Radiation Poisoning Effects**

- 200 rads: -1 EN
- 400 rads: -2 EN, -1 AG
- 600 rads: -3 EN, -2 AG, -1 ST
- 800 rads: -3 EN, -2 AG, -2 ST
- 1000 rads: Death!

- **EFF** – Shows all of the positive and negative effects you character is experiencing. This could be due to radiation damage, certain clothing you have equipped, Aid you may be using, and other effects.

Your seven primary attributes. A (-) to the right of the number indicates that attributes is suffering a negative effect, while a (+) indicates it is enjoying a boost. Check the CND section of your Status menu for more information.

**SKILLS**

Information on your skills.

**PERKS**

Special abilities you can choose every other level.

**GENERAL**

Lists your Reputation with the various factions in the Mojave Wasteland. Press the F button to toggle between Reputation and a list of your many accomplishments while playing the game as well as your current Karma status and level. See page 17 for more on Reputation.
ITEMS MENU

The Items Menu has five sections: Weapons, Apparel, Aid, Misc. and Ammo.

**Item Characteristics**

Items in your inventory may have a number of characteristics that will appear when the item is highlighted:

- **DAM** – How much Damage the weapon does (the higher the number, the better)
- **DPS** – How much Damage the weapon does per second (the higher the number, the better)
- **DT** – The Damage Threshold (the higher the number, the better. See Armor/Apparel, page 14)
- **WG** – How much the item weighs
- **VAL** – The item’s value in Bottlecaps
- **CND** – The current condition of the weapon
- **EFFECTS** – Any positive or negative effects your character will experience if the item is equipped.

Weapons will also display the caliber Ammo the weapon uses along with the current rounds loaded and remaining rounds.

**HOTKEYS**

In the Inventory Menu, press and hold the **R2** button and press a direction on the Directional buttons. Then highlight the weapon, apparel, or healing item you want in that slot. Note that you can still change sections and menus in your Pip-Boy with the Hotkeys open and the item will be assigned when you release Directional buttons.

While playing, use the Directional buttons to select any of your seven Hotkeyed items. You can also press and hold the Directional buttons to see all your hotkeys.

DATA

The top portion of the Data section will always display your current location and the current date and time. The Data section includes five menus: Local Map, World Map, Quests, Notes, and Radio.

**LOCAL MAP**

The Local Map displays an overhead map of your current location, as well as any nearby doors.

**WORLD MAP**

The World Map shows an overhead map of the entire Mojave Wasteland area, and markers for any places that have been discovered during the course of your adventures. You can fast travel directly to any place you have previously visited by highlighting the location and pressing the **X** button. Move Up/Down on the Left stick to zoom in/out on the map. Use the Right stick to move around the map.

**QUESTS**

The Quests screen in your Pip-Boy’s Data section tracks your progress in every quest you have undertaken. To the left is a list of quests: those with bright text are active; those with darkened text have been completed or failed. Your active quest is marked by a small box.

On the right-hand side of the screen are the objectives for each quest. The active objectives have bright text and are on the top of the list; the completed objectives have darkened text and are at the bottom of the list. Objectives marked as “(Optional)” are not necessary to successfully complete the quest.

**NOTES**

Contains all quest related and miscellaneous notes you find in the game, both written and audio. Press the **X** button to listen to an Audio note (the audio will continue to play even if you close your Pip-Boy menu). Press the **Start** button to toggle between All Notes and only Active Quest Notes.

**RADIO**

All the radio signals you have discovered are listed on the Radio screen in the Data tab of your Pip-Boy. Signals listed in bright text are within range, and can be listened to. Signals listed in darkened text have been discovered, but you are no longer within range – in order to listen to one of these stations, you have to move back into the signal’s receiving range.
HARDCORE MODE

After creating your character, you will be given the choice to turn on Hardcore Mode. Separate from difficulty levels, this special way of playing the game creates a more strategic and complex experience that is tailored for more experienced Fallout players.

In Hardcore Mode, you will have to eat, sleep and remain hydrated. Any damaged limbs can only be healed using Doctor’s Bags or visiting a doctor. Ammunition is given weight in hardcore mode, requiring you to closely monitor your inventory at all times.

While fast traveling via the Pip-Boy does still work in Hardcore Mode, you may not fast travel if your character would die due to dehydration or starvation in the time it would take you to get there.

You may toggle Hardcore Mode at any time via the Options menu, however in order to earn the Hardcore achievement you must play the entire game, from the point you are first prompted until the endgame sequence without ever turning it off.

XP AND LEVELING UP

When you reach the required number of Experience Points, you will level up automatically, so long as you’re not in combat.

Every time you level up, your Health increases and you gain Skill Points to assign to your skills. You may choose a new perk for every two levels you increase.

Note: When leveling up, the level for your skills is their natural level and does not include any bonuses you may be receiving due to items or Chems.

COMBAT

The Mojave Wasteland is a dangerous place, and combat is a fact of life for all but the most diplomatic of survivors.

WEAPONS

Weapons fall into several categories: ranged weapons, melee weapons, unarmed weapons, grenades and mines. Your effectiveness with any weapon depends on your character’s skills, the condition of the weapon, and the Damage Threshold of your opponents.

When using any weapon, aim with your crosshair and pull the L1 button to attack. When using an automatic weapon, holding down the L1 button will continuously fire. Your character will automatically reload a weapon when you use up your current rounds, provided you have additional ammo available. To reload at any time, you can tap the R button.

Damage is calculated by subtracting the DAM rating of the weapon you are firing against the Damage Threshold of your target’s armor. You will always cause some damage, but if you see a red shield, it means you would be better off using a different weapon. If you see a shredded shield image this means you are doing large amounts of damage to your target.

Your accuracy and damage in combat is determined by your Strength level, as well as the governing skill for the type of weapon you are firing (Guns, Energy Weapons, Explosives, etc.). Weapon condition also affects how much damage is done, as well as the chance the gun jams when reloading. Repairing weapons can increase the amount of damage they do (see “Repairing Weapons and Apparel” below) and reduce the chance of your weapon jamming. Holding the L1 button will allow you to aim and fire more accurately, but move slowly.

When you are sneaking (press down on the L1 button to toggle) your character will move slowly but has a chance of a sneak attack bonus on any target that has not detected you. For more information on Stealth mode, see pg. 18.

MODDING YOUR WEAPONS

As you make your way through the Mojave Wasteland, you may find weapon mods for sale or in various containers. Each of your weapons can accommodate up to three unique modifications, and these can add new features like enhanced zooming with a scope, additional bullets per clip, or increased damage. Modding a weapon also increases its value to merchants. To activate a mod, select the weapon in the Items list of your Pip-Boy and press the L2 button. Then select the mod you want to attach. Once a mod is attached to a weapon it is indicated with a + sign in your weapons list. You cannot remove a mod once it has been attached. Mods are specific to each individual weapon, so you cannot attach the sight for the 9mm Pistol to the .357 Magnum Revolver.
**MELEE AND UNARMED ATTACKS**

You can attack an enemy with melee or unarmed attacks when they are within range of your character. As you increase your Melee skill, you may notice your weapons have unique moves in V.A.T.S. (see page 15 for more on V.A.T.S.). At higher levels of the Unarmed skill, you will automatically use advanced unarmed attacks while fighting. In addition, there are several unique unarmed moves that can be learned from characters throughout the Mojave Wasteland.

**R1 button:** Performs a melee attack. Hold to do a power attack that does double damage.

**LT button:** Block. Blocking incoming melee attacks provides a large bonus to your Damage Resistance.

---

**ARMOR/APPAREL**

Each piece of armor you wear adds to your Damage Threshold. The higher your DT, the less damage you will take from attacks. The amount of protection you receive from a piece of armor depends on the armor itself and whether the armor is in good repair. As your armor’s condition is lowered, you lose points off your Damage Threshold. Be sure to repair your armor regularly to avoid ineffective armor! Some pieces of apparel have a low Damage Threshold, but add different bonuses such as increases to Skills or Stats.

---

**REPAIRING WEAPONS AND APPAREL**

An item’s condition affects how well the item works, as well as its value. Weapons of lower condition will do less damage, and jam more frequently. Armor of lower condition will offer less protection. You can repair items in your Pip-Boy by selecting Repair (**button** on the item. You can only do this if you have similar items to use for parts.

---

**V.A.T.S.**

The Vault-Tec Assisted Targeting System, or V.A.T.S., allows you to pause the game, assess any combat situation tactically, and target the specific body parts of any enemies onscreen.

**Limb Condition:**
Displays the relative health of each part of an enemy. When the bar disappears, the body part is crippled.

**AP (Action Points):**
This bar will deplete as you queue up attacks. The Flashing part is the amount of AP needed to do an attack.

**Enemy Health:**
How much health your target has left.

Pressing and holding the **R2 button** will pause the game and scan the area of targets. To zoom in on an enemy, simply select it with your Right stick and release the **R2 button**. You are now able to target the individual body parts of that enemy using the Left stick.

When using a melee weapon or unarmed combat, you will need to be close to have a chance to hit. Both melee and grenades are “full body” attacks, and you cannot specify a specific body part.

If your Melee skill is high enough, you will see a unique attack move listed on the screen. Press the **button** to initiate this move.

Every attack on a body part uses up Action Points. Heavier weapons use more Action Points for every shot.

When you’ve used up all of your Action Points, and are ready to perform the attacks, press the **button**.

The number of attacks you can make is limited by your Action Points.
COMPANIONS

As you venture across the wasteland, you will encounter friendly characters who will offer to join you on your journey. At any time you can have one human (or humanoid creature, such as a mutant or ghoul) and one non-human (robot or animal) companion with you.

Having a companion adds specific bonuses for each character, such as increases to the effectiveness of healing items, or stat increases. These bonuses are only in effect while that character is with you, and go away as soon as you dismiss them from your party.

Companions also have unique storylines to be followed as you play through the game. Get to know them and they’ll reveal more about themselves and the wasteland.

CONTROLLING YOUR COMPANIONS

Companions will follow you wherever you go and automatically aid you in combat. However for more control over them, you can use the Companion Wheel to issue commands.

To bring up the Companion Wheel walk up to your party member and press the \button. You can then issue these commands:

- **Be Aggressive/Be Passive:** Toggles attack states for your companion. When set to aggressive, your companion will attack any hostile target within range. When set to passive, your companion will wait for you to attack before going after targets.
- **Use Stimpak:** Allows you to use a Stimpak from your inventory to heal your companion. The companion’s current health and maximum health are displayed here, along with the number of Stimpaks currently in your inventory. Note that companions will automatically use any healing items in their inventory when their health gets low.
- **Wait Here/Follow Me:** Asks the companion to wait for you or follow along. You may find situations where it is best to have your companion wait for you at a distance.
- **Talk To:** Opens up a dialog with your companion. Use this to learn more about them. Doing so will open up new quests and new abilities for you and your companions!
- **Back Up:** Tells your companion to step back a bit.
- **Keep Distance/Stay Close:** Sets how far away your companion walks behind you.
- **Open Inventory:** Opens a screen where you can exchange items with your companion. Be sure to upgrade their armor and weapons as you wander the wasteland together, and keep them stocked with ammo and healing items!
- **Use Ranged/Use Melee:** Tells your companion to switch between ranged and melee attacks. Certain companions will be better suited to one or the other fighting style.

AID

When you are hurt, there are several ways to restore your health:

- Visit a doctor and pay for healing.
- Use a Stimpak, Super Stimpak, or Doctor’s Bag.
- Eat food or drink water.
- Sleep in a bed.

Each time you take a chem or drink alcohol, your chance of becoming addicted to it goes up. If you stop using the drug for a while, this chance will drop. Each drug has its own addiction chance, so using one type will not increase your chance of becoming addicted to another.

Addiction will hurt some of your S.P.E.C.I.A.L. attributes. These penalties go away temporarily if you take that drug again. A doctor can cure you of any addiction, for a price.

In order to heal a crippled limb, you have three choices: sleep in a bed, find a doctor, or use a healing item to heal yourself.

Stimpaks can be used for general healing (which will also slightly heal crippling damage), or they can be applied directly to a limb to heal crippling damage. Doctor’s Bags can heal multiple crippled limbs, however they are much rarer in the world than Stimpaks.

To heal a crippled limb directly using a Stimpak, navigate to the Stats screen in your Pip-Boy, then select the limb and use the Stimpak directly on that limb.
STEALTH

Your stealth state is displayed when you crouch (click the \E\ button). [HIDDEN] means nobody detects you. [CAUTION] means someone is searching for you. [DANGER] means you have been detected by an enemy.

How stealthy you are is affected by many factors:

- **Sneak skill**: Your Sneak skill only helps you when you are crouching. The higher your Sneak skill, the easier it is to remain undetected, steal an item, or pick someone’s pocket.
- **Enemy’s perception**: Some enemies are less perceptive than others, and therefore less likely to detect you.
- **Line of sight**: An enemy is much less likely to detect you if he can’t see you.
- **Light level**: You are harder to see in darker areas.
- **Movement**: You are hardest to detect when motionless, easiest to detect when running.
- **Apparel weight**: Heavier apparel makes more noise when moving.
- **Sound**: Most melee weapons make very little noise; bigger guns make a lot of noise.

Successfully attacking while undetected gives you an automatic “sneak” critical.

REPUTATION

Your actions in the Mojave Wasteland contribute to your Reputation with each of the major towns and factions in the game. At any time you can check your reputation with every faction and town by going to your Pip-Boy and selecting the General tab (for more on the Pip-Boy 3000, see page 7).

Reputation numbers increase and decrease as you help or harm each individual faction or major location, and you are given a title for your current status. Having a positive reputation with a faction will enable different dialog options and people will be more likely to help you. If your reputation is overly negative, members of that faction may attack you on sight.

In addition to your reputation, simply wearing the uniforms of an opposing faction may affect how characters react to you. Members of one faction may decide to shoot you if you’re wearing the clothing of their hated enemy. Be careful!

CRIME AND PUNISHMENT

Crimes are divided into two categories: major and minor.

Minor crimes cause only the victim to become hostile to you:

- **Theft**: If the owner sees you steal something that she owns, she will try to take it back from you. If you try to escape, or persist in stealing from her, she will attack you (or run for help). If you fight back, you are now committing a major crime (Assault, see below).
- **Trespass**: If the owner sees you open a locked door, container, or computer, he will immediately attack you.

Major crimes cause the victim and the victim’s friends to become hostile to you:

- **Assault**: Attacking someone without provocation, or fighting back when someone attacks you for a minor crime.
- **Murder**: If there are witnesses who care about the victim, they will become hostile to you.

If a fight starts that you did not intend, you can attempt to yield by holstering your weapon. This may or may not be successful depending on how the attacker feels about you.
When in dialogue with a character, simply select the response that seems most appropriate to the situation... and be prepared for the character you’re talking with to react accordingly.

You may occasionally be presented with dialog options that are preceded by the name of a skill (e.g., [Sneak]) or a specific faction that you may have reputation with (e.g., [NCR]). This means the line in question is available because you possess the necessary perk or your skill/reputation is high enough, and would not be available otherwise. If you see a line with a skill name and a set of numbers after it that highlights in red when selected (e.g., [Barter 25/50]) it means your current skill level is too low to be successful with this line of dialog. The first number represents your skill level, the second represents the level needed to be successful. You may reach that level by taking Chems, reading skill magazines or other temporary means. Note that there are never any long-lasting effects to failing skill dialog options, so you can always try again later.

Containers include things like dead bodies, desks, boxes, lockers, and more. To see what’s inside a container, direct your Crosshair over the object and press the \( S \) button. If the rollover text is red, someone else owns the container, and taking anything from the container is stealing, and a crime if you are detected.

Your inventory is displayed on the left, the container’s is on the right. You can switch between the two lists using the \( W \) and \( R \) buttons. Use the Left stick or the Directional buttons to filter the lists (All, Weapons, Apparel, Aid, Misc, Ammo).

You can take things from the container, or move them from your inventory into the container, by selecting an item in either list and pressing the \( S \) button. Scroll up and down in lists with the Left stick or the Directional buttons.

Press the \( F \) button to take everything from a container. The \( A \) button closes the container.

Warning! Don’t leave things in containers you don’t own! They may not be there when you come back for them!

The Barter screen allows you to trade, buy or sell items. The prices you get for buying or selling depend on your Barter skill.

To Barter, simply select an item and hit the \( S \) button to move it from your inventory into the other person’s (if you want to sell or trade one of your own items) or from the other person’s inventory into your own (if you want to buy or trade for one of their items).

As items are moved back and forth, caps will also be automatically moved between both parties. This is represented by the large “caps” arrow in the middle.

If the arrow is darkened, it means one of you doesn’t have enough caps to complete the transaction. You cannot accept the barter if you don’t have enough caps. But you can accept it if the other person doesn’t have enough, but at this point, you are giving items away for free.
GAMBLING

On the New Vegas strip and elsewhere, you will find casinos and bars that are more than happy to take your hard-earned caps away from you. Outcomes are affected by your Luck stat.

Note that casinos may require you to exchange your caps for in-house chips before letting you gamble in their establishment.

BLACKJACK

The goal of Blackjack is to have the sum total of your cards higher than the dealer’s up to 21. Going over 21 is a “bust” and results in that player losing the hand. Numbered cards are equal to their face value, with face cards (jack, king, queen) valued at 10, and aces at either 1 or 11.

Payout rules vary from casino to casino throughout the wasteland.

SLOT MACHINES

Slot Machines are as basic as gambling gets. Put down your money and spin the wheel.

Controls

To activate a Slot Machine, just walk up to it and press the S button.

Once you’ve chosen a machine, set your bet by increasing or decreasing the amount with R1 and L1 buttons (or choose the maximum by hitting the D button) and press the S button to give it a spin.

You can also check the payout list of the current machine by pressing the D button.

ROULETTE

In Roulette, gamblers put their money down however they like before a ball is placed on the wheel and spins until it stops, landing on one of the numbers. Payouts are given according to where the ball lands.

Controls

To activate a Roulette table, walk up to it and press the S button.

The next step is to place your bet (or bets, as it were). Move your cursor around the layout using the left stick. As you pass over each area, you will see the details of the bet and the payout in the upper left corner of the screen. You can choose to bet on an exact number, a group of two or four numbers, a bank of 12 or 18 numbers, all even or odd numbers, or the colors red or black.

To place a bet, choose the amount using the R1 and L1 buttons, and place your chips down by pressing the S button. You may place up to 10 bets per round.

When you have placed all of your bets, press the D button to spin the wheel and try your luck.
CARAVAN
Out in the wasteland, the game of choice is Caravan. Created by caravan guards using whatever cards they could find lying around, this is a one-on-one card game played with a cobbled together deck of loose playing cards.

Building a Deck
Caravan decks are comprised of at least 30 cards from one or more traditional playing card sets. The deck may have any number of cards of any type, although it cannot have duplicate cards from the same source deck. A balanced deck has a mixture of numerical and face cards, with the specific balance tailored to the player’s personal style.

Rules
Caravan is played with players building three opposing piles (or “caravans”) of numbered cards. The goal is to outbid your opponent’s caravan with the highest value of numbered cards without being too light (under 21) or overburdened (over 26).

The game begins with each player taking eight cards from their deck and placing one numerical card (or ace, valued at 1) on each caravan. Players may not discard during this initial round.

Once both players have started their three caravans, each player may do one of the following on their turn:

• Play one card and draw a new card from his or her deck to their hand.
• Discard one card from their hand and draw a new card from his or her deck.
• Disband one of their three caravans by removing all cards (numeric and face) from that pile.

Caravans have a direction (either ascending or descending numerically) and a suit. The suit is determined with the first card placed on a caravan, the direction by the second. All subsequent cards must continue the numerical direction or match the suit of the previous card. Cards of the same numerical value cannot be played in sequence, regardless of suit.

Face cards can be attached to numeric cards in a caravan, either on one of player’s own or one of their opponent’s and affect them in various ways.

Card values:
• Joker - Played against A, 2-10. Effects change based on whether it is an ace or numbered card (see below). Multiple jokers may be played on the same card.
• Ace - Value of 1. Jokers played on aces remove all other non-face cards of the ace’s suit from the table. E.g. a joker played on an ace of spades removes all spades (except face cards and that card, specifically) from the table.
• 2-10 - Listed value. Jokers played on these cards remove all other cards of this value from the table. E.g. a joker played on a 4 of hearts removes all 4s (other than that card, specifically) from the table.
• Jack - Played against A, 2-10. Removes that card, along with any face cards attached to it.
• Queen - Played against A, 2-10. Reverses the current direction of the hand, changes the current suit of the hand. Multiple queens may be played on the same card.
• King - Played against A, 2-10. Adds the value of that card again. E.g. a king played on a 9 adds 9 to that hand. Multiple kings may be played on the same card for multiplicative effects. E.g. 4 + king = 8, 4 + two kings = 16.

Winning
A player’s caravan is considered sold when the value of its cards is over 20 and under 27, however the other player may still outbid by increasing the value of their opposing pile (while still staying within the 21 – 26 range). When each of the three competing caravans has sold, the game is over. In the event that one of the three caravan values are tied between players, the game continues until all three caravans have sold. The player with two or more sales wins the pot.

Controls
Certain NPCs in the Mojave Wasteland will offer to play you in a game of Caravan. In dialog, challenge them in a game to start playing.

Betting
The first phase is betting. Here you can see the amount your opponent has put down listed in the lower left hand corner, along with your current bet and your total funds. Press the \e button to meet your opponent’s wager, or the \e button to raise them. When you’ve completed your bet, press the \e button to exit and move to the next phase.

Building a Deck
Before playing a game of Caravan, you can first create or modify your deck. The top row of cards represents the contents of your deck. On the second row are all the cards you own. Navigate through the cards with the left stick, and add to your deck by pressing the \e button. You can remove cards from your deck using the \e button. You can also randomize a deck by pressing the \e button. When you have built a deck, press the \e button to move on to the next phase.

Playing the Game
When it’s your turn, select a card from your hand using the Left Stick. Press the \e button to choose a card. Choose the position for the card (either as a part or modifier to your own Caravan, or as a modifier to one of your opponent’s cards) and press the \e button to place the card. The numbers in the middle of the screen show the current value of each player’s Caravans.
OPTIONS AND PREFERENCES

You can access the Options Menu from the Main Menu when you load Fallout: New Vegas or at any point during the game, by pressing the button. The Options Menu allows you to adjust your gameplay, audio, video, and control settings, and gives you access to the Download option.

GAMEPLAY

Using this menu, you can adjust several game settings:

- **Kill Cam Mode:** This changes the slow-motion effect when killing the last of a group of enemies. By default this is set to “Cinematic” which is a third person, sweeping camera movement. Other options are “Player View” which slows down time without changing perspective, or “None” which turns the feature off entirely.

- **Hardcore Mode:** Hardcore Mode is a much more difficult way of playing Fallout: New Vegas. For more information on Hardcore Mode, see page 12.

- **Difficulty:** Separate from Hardcore Mode is the difficulty level of the gameplay. These range from Very Easy to Very Hard. This setting affects the amount of damage your attacks do to enemies and how much damage you take when killing enemies.

- **Save on Rest/Wait/Travel:** These options set whether or not the game saves automatically when each of these actions are performed. By default they are set to “On”.

- **True Iron Sights:** This toggles the level with which the camera zooms in when looking down your weapon’s sight in combat. Turning it off will have the camera zoom in but leave the crosshair on-screen for targeting.

DISPLAY

Adjust the Brightness slider with this menu. If you have certain TVs (e.g. DLP or LCD projection) or play in a bright room we recommend increasing the brightness. You can also adjust the Pip-Boy colors, HUD Opacity, and Subtitles.

AUDIO

Use this menu to adjust volume levels. Note the Radio has its own volume setting for your Pip-Boy.

CONTROLS

In this menu you can adjust Vertical and Horizontal Sensitivity, and Invert the Y Axis. You can also reassign the Action Mapping for the game’s controls.

END USER LICENSE AGREEMENT

This is a legal agreement ("Agreement") between you, the end user ("You") and ZeniMax Media Inc. through its division, Bethesda Softworks LLC ("Licensor"). This Agreement is part of a product package (the "Package") that includes one or more discs containing one or more Licensor software products (collectively, the "Product") and certain electronic and/or written materials (the "Documentation").

BY CLICKING "AGREE", BY INSTALLING THE PRODUCT OR BY ACCESSING OR USING THE PRODUCT OR OTHER SOFTWARE, IF ANY, PROVIDED TO YOU IN THE PACKAGE, YOU ACKNOWLEDGE THAT YOU HAVE READ ALL OF THE TERMS AND CONDITIONS OF THIS AGREEMENT, UNDERSTAND THEM, AND AGREE TO BE LEGALLY BOUND BY THEM.

1. LICENSE:

Subject to the terms and conditions of this Agreement, You are entitled to use one copy of the Product, in executable form, for Your personal, non-commercial use. You may not sell or transfer reproductions of the Product or Documentation, or any other part of the Package to other parties in any way. You agree not to use the Product in any manner other than its intended use and/or purpose.

2. OWNERSHIP; COPYRIGHT:

You agree and understand that You are provided with LICENSED RIGHTS; nothing herein shall be deemed to be a transfer of ownership of any software or proprietary materials of Licensor or its licensor, Title to and ownership of the Package, including the Product (and all parts thereof), the Documentation, and patents, trademarks, copyrights and all other intellectual property and other property rights applicable thereto, shall at all times remain solely and exclusively with Licensor and/or its licensors, and You shall not (nor shall You permit any third party to) take any action inconsistent with such title or ownership. The Product, the Documentation, and the other components of the Package are protected by United States copyright and other applicable laws and by international treaty provisions. Any rights not expressly granted herein are reserved to Licensor and/or its licensors. You may not modify or remove any proprietary rights notices of Licensor or any of its licensors.

3. OTHER RESTRICTIONS:

You may not cause or permit the sale, disclosure, copying, renting, licensing, sublicensing, leasing, disseminating, uploading, downloading, transmitting, or otherwise distributing the Product, the Documentation or any of the other components of the Package by any means or in any form, without the prior written consent of Licensor. You may not (and may not permit any third party to) modify, enhance, supplement, create any derivative works from, adapt, translate, reverse engineer, decompile, disassemble or otherwise reduce the object code form of any software provided to You to human readable form, or use parts of the software product provided as part of the Package independently of the Package or of the Product. You may not (and may not permit any third party to) avoid, circumvent or disable any security mechanism, procedure or protocol, or any copyright protection, provided or included in connection with the Package or any parts thereof.

You shall not create any new materials using any Product content ("New Material") that infringe upon the rights of others, or that are libelous, defamatory, harassing, or threatening. If You distribute or otherwise make available New Material to others, You automatically grant to Licensor the irrevocable, perpetual, royalty-free, sublicensable right and license under all applicable copyrights and intellectual property rights laws to use, reproduce, modify, adapt, perform, display, distribute and otherwise exploit and/or dispose of the New Material (or any part of the New Material) in any way Licensor, or its respective designee(s), sees fit. You also waive and agree never to assert against Licensor or its licensees any moral rights or similar rights, however designated, that You may have in or to any of the New Material. As noted below, if You commit any breach of this Agreement, Your license and this Agreement shall automatically terminate, without notice.

Your breach of this Section shall constitute a material breach of this Agreement and/or of applicable copyright and other intellectual property rights laws and treaties, and may subject You to civil and criminal liability.

4. TERMINATION: This Agreement and the licenses granted under this Agreement are effective until terminated. They shall terminate automatically without notice if You fail to comply with any provision of this Agreement. Upon termination You shall immediately cease using the Product and destroy the Product, the Documentation, and the other parts of the Package, and all copies of any parts thereof.

5. GENERAL: This Agreement constitutes the entire understanding between Licensor and You with respect to subject matter hereof. Any change to this Agreement must be in writing, signed by Licensor and You. Terms and conditions as set forth in any purchase order which differ from, conflict with, or are not included in this Agreement, shall not become part of this Agreement unless specifically accepted by an authorized representative of Licensor in writing. You shall be responsible for and shall pay, and shall reimburse Licensor on request if Licensor is required to pay, all taxes including (but not limited to) value added tax, consumption or other tax (excluding any tax that is based on Licensor’s net income), assessment, duty, tax, or other fee or charge of any kind or nature that is levied or imposed by any governmental authority on the Package. No waiver of Licensor’s rights shall be effective unless made in a writing signed by a duly authorized representative of Licensor. You understand that the Product may contain confidential information and/or trade secrets of Licensor. You agree to maintain and protect such confidential information and trade secrets in strictest confidence for the benefit of Licensor, and not to use or disclose them without express authorization from Licensor. All disclaimers and Sections 2, 3, 5, 6, and 8 shall survive any termination of this Agreement. If any provision of this Agreement is held to be invalid, unenforceable, or not to be compliant with requirements of local law that may not be varied by contract, then it shall be deemed severed from this Agreement, and deemed replaced with a substitute provision that retains to the maximum extent possible, the effect, scope and economic benefit of the severed provision consistent with applicable law. All other provisions shall continue in full force and effect.

6. EXPORT AND IMPORT COMPLIANCE: You are solely responsible for compliance with the export control laws and regulations of the United States and Your locality. In the event You export the Product, the Documentation or any other part of the Package from the country in which You first received it, You assume the responsibility for compliance with all applicable export and re-export regulations, as the case may be.

7. SUPPORT SERVICES: Support services, if any, provided by Licensor shall be subject to the terms of this Agreement and Licensor’s current support policies. Licensor provides support services solely on an “AS IS” basis.

8. GOVERNING LAW; ARBITRATION: This Agreement and Your use of the Package, and all disputes arising out of or related to this Agreement or the Package (or any part thereof) shall be governed by, and any arbitration hereunder shall apply the laws of the State of Maryland, USA, excluding (a) its conflicts of laws principles; (b) the United Nations Convention on Contracts for the International Sale of Goods; (c) the 1974 Convention on the Limitation Period in the International Sale of Goods; and (d) any Protocol amending the 1974 Convention. Any dispute, controversy or claim arising out of or relating to this Agreement or the Package (or any part thereof), including its interpretation, performance or termination, shall be finally resolved by arbitration. The arbitration shall be conducted in accordance with the then-current arbitration rules of the AAA applicable to the dispute (such as, for example, the AAA international rules if You are an international party). The arbitration shall be conducted by three (3) arbitrators, one to be appointed by Licensor, one to be appointed by You and a third being nominated by the two arbitrators so selected or, if they cannot agree on a third arbitrator, by the President of the American Arbitration Association (“AAA”). The arbitration shall be conducted in English and in accordance with the then-current arbitration rules of the AAA applicable to the dispute (such as, for example, the AAA international rules if You are not a United States resident). The arbitration, including the rendering of the award, shall take place in Rockville, Maryland USA, and Rockville, Maryland USA shall be the exclusive forum for resolving any such dispute, controversy or claim; however, if You are a resident of the European Community, the arbitration shall take place in London, England. The decision of the arbitrators shall be binding upon the parties hereto, and the expense of the arbitration (including without limitation the award of attorneys’ fees to the prevailing party) shall be paid as the arbitrators determine. The decision of the arbitrators shall be executory and judgment thereon may be entered by any court of competent jurisdiction. Notwithstanding anything contained in this Paragraph to the contrary, Licensor shall have the right to institute, defend or prosecute any action, suit, arbitration or other proceeding against You or anyone acting by, through or under You, in order to enforce Licensor’s rights heretofore through reformation of contract, specific performance, injunction or similar equitable relief.

WARRANTY INFORMATION

LIMITED WARRANTY
Bethesda Softworks LLC, a ZeniMax Media company (“Bethesda Softworks”) warrants to you, the original purchaser of this disc and the game software encoded thereon (“Game”), that under normal use the Game will perform substantially as described in the accompanying manual for a period of 90 days from the date of purchase (“Warranty Period”). This Limited Warranty: (a) does not apply if the Game is used for a business or commercial purpose; and (b) is void if failure of the Game has resulted from accident, virus, misuse or misapplication.

EXCLUSIVE REMEDY AND LIMITATION OF LIABILITY
Warranty claims must be made to the retailer from which you purchased the Game. You must return the Game to your retailer during the Warranty Period, together with a copy of the original sales receipt and an explanation of the difficulty you are experiencing with the Game. At its option, the retailer may either repair or replace the Game. Any replacement Game will be warranted for the remainder of the original Warranty Period or 30 days, whichever is longer. Bethesda Softworks’ and its licensors’ and suppliers’ entire liability and your exclusive remedy shall be, at the retailer’s option, the repair or replacement of the Game that does not meet this Limited Warranty and is properly returned to the retailer. Outside the United States, neither of these remedies nor any product support services are available without proof of purchase from an authorized international source.

WARRANTY PROTECTION
To be eligible for warranty protection hereunder, you must register at www.bethsoft.com within thirty (30) days of purchase. Failure to register within thirty (30) days of purchase shall result in the loss of your warranty protection. Warranty protection is available only to you, the original purchaser. In the event of any questions in this regard, Bethesda Softworks reserves the exclusive right to determine warranty eligibility and appropriate redress, if any.

NO OTHER WARRANTIES, CONDITIONS OR DUTIES.
TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, BETHESDA SOFTWORKS AND ITS LICENSORS AND SUPPLIERS DISCLAIM ANY AND ALL OTHER WARRANTIES AND DUTIES, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NONINFRINGEMENT, OR NON-MISAPPROPRIATION OF INTELLECTUAL PROPERTY RIGHTS OF A THIRD PARTY.

EXCLUSION OF CONSEQUENTIAL, INCIDENTAL AND CERTAIN OTHER DAMAGES
To the full extent allowed by law, neither Bethesda Softworks nor its licensors and suppliers are liable for any: (a) consequential or incidental damages, (b) damages for any nature relating to lost profits, loss of data, privacy or confidentiality, or failure to achieve desired results or to meet any duty, including but not limited to any duty of lack of negligence or of workmanlike effort, or (c) indirect, special, punitive, exemplary or similar damages, arising out of or relating in any way to any breach of this Limited Warranty. The foregoing applies even if Bethesda Softworks or its licensors or suppliers have been advised of the possibility of such losses or damages. Some jurisdictions do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of consequential or incidental damages so the above limitations and/or exclusions of liability may not apply to you. This Limited Warranty gives you specific rights, and you may have other rights that vary from jurisdiction to jurisdiction.

TECHNICAL AND CUSTOMER SUPPORT
For technical and customer support, please call 410-568-3685. 9:00 am to 5:00 pm Eastern time Monday through Friday, excluding holidays of the United States, or visit www.bethsoft.com. If you are outside the United States, send your Game disc to Bethesda Softworks, 1370 Howard Lane, Suite 120, Rockville, MD 20850, USA, together with a dated proof of purchase, your product number, a brief description of the error or defect, and your return address.
